

# What are the outstanding connections economic development needs in your region?

existing connections  
economic development

frank

Conchas lake has a good campgorund but the water system is in poor shape

Business owners in an area with a lot of state parks. Management of state parks is a big problem. All parks have different needs.

For all of this! partner with private or non-profit sectors to participate. Need to work with EDD.

Take care of what we've got before we expand Ramps on north side of Ute Lake are very busy. South side doesn't have bathrooms. Need bathrooms on south side and/or more ramps

reservation only is not working for parks. Listen to park leaders on the ground

Conchas lake area needs marinas, unloading ramp

signage, way finding and promotion

A lot of comparison to CO facilities. Need upgrade existing facilities to compete

Improvements to existing trails

Promotion of Valle Vidal resources

Raton is purchasing land that will connect recreation amenities with communities

Climax canyon trail in Raton is a great example of local trails. What about a trail connecting northern state parks?

Economic Development through outdoor recreation

Connect outdoor assets with community. We want these assets to draw people to spend money in communities

Non-motorized trails also attract a lot of folks to NM. Lots of ATVs in Taos County already

More opportunities for ATV and OHV in the Raton area. We're losing some of those travelers from Texas to other states. Barrier is that it's a lot of private land. land aquisition or easements?

LOW

# What are the opportunities or barriers to meeting your region's outdoor recreation needs?
